Assessment Completion Report

How to: Track Assessment Completion

The **Assessment Completion Report** provides administrators with a clear overview of student assessment status. This report helps educators quickly identify which students have completed their required assessments and who still needs to be assessed or reassessed. This report updates daily.

- 1 Use the side filter menu to apply or adjust filters to customize the display
- 2 Click on the graphs to drill down into the report
- 3 Refer to the color-coded key located at the bottom of the page.

- 4 Use the top filter to view completion reports across different settings
- 5 Use the download button to export the data
