

Getting Started

Launch Planning Guide

Before Assessment:	During Assessment:	After Assessment:
1. Adjust Settings 2. If applicable: Assign assessment 3. Introduce Students to Reading Assistant	1. Track assessment completion	1. Review Class Progress Report 2. Listen to a recording
My Reading Assistant Plan: My first Reading Assistant Assessment will happen on _____ date during _____ block in _____ small groups/whole group. My students will consistently read with Reading Assistant during _____ block in _____ small groups/whole group. Our goal will be to read _____ # _____ minutes/stories per week.		
Next Steps: • Explore the Support Hub • Review the Launch Checklist		

Frequently Asked Questions

1. What should I do if I need help or have a question?

- Chat with Amira in the lower left hand corner of your Growth Dashboard. Ask any question for a quick response.
- If you have trouble or the chatbot answer doesn't make sense, please reach out to EPS SUPPORT.

Email: support@epslearning.com

Site with chat feature: support.epslearning.com

Phone: 800-225-5750, Option 3

2. How should I set up my student devices?

- Visit our [Technical Support Page](#) and select the device you are using to find setup information.

3. Can I use a Reading Assistant student demo account to test it out?

- Model reading with Reading Assistant on your students' devices before assessment day by using these demo student logins.
- NOTE: Amira is trained to listen to and understand children's reading. When adults use a student account, interventions may not behave exactly as they would with a student because the errors don't always reflect typical student reading patterns. For a more realistic experience, try to match the reading pace and common errors a student at that grade level might make.

Student Demo Accounts		
Login URL: Student Demo Account		
Domain: Async Demo School		
Grade Level	Username	Password
2nd Grade - Emma	2stu1	student
4th Grade - Daniel	4stu2	student
6th Grade - Madison	6stu13	student
